Expert System Will Participate at AIM Italia Conference, London 2018

Modena, October 18 2018

Artificial Intelligence company Expert System today announced that it will participate in AIM Italia Conference 2018, an initiative created by Borsa Italiana to bring together international investors with a group of companies listed on the AIM Italia stock exchange.

The event will be held **October 22** (Liverpool Street, 155 Bishopsgate). **Stefano Spaggiari**, **CEO** of **Expert System**, will introduce the company and mid-year financial statements.

The presentation from Expert System will be publicly available on the morning of the event on the company website under Investor Relations: Presentations.

About Expert System

Expert System (EXSY:MIL) is a leader in Artificial Intelligence applied to text. Its flagship Cogito® platform, based on a unique blend of semantic technology and machine learning, helps organizations deploy cognitive automation to accelerate business processes, improve information management and take smarter decisions. Expert System's solutions have been deployed in media, customer care, compliance, third party risk mitigation and intelligence applications by leading organizations such as Agence France-Presse, BASF, Bayer, Bloomberg BNA, BNP Paribas, Chevron, Clarivate, Eli Lilly, Gannett, Generali, IMF, Lloyd's of London, Sanofi, US Department of Agriculture, US Department of Justice and Zurich Insurance Group.
